

## Recombinant Human NUMA1 Protein, His-tagged

**Cat. No.** NUMA1-1544H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human NUMA1 Protein (Phe1700~His2115) was expressed in E. coli with N-terminal His Tag.               |
| <b>Species</b>          | Human                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                            |
| <b>ProteinLength</b>    | 1700-2115 a.a.                                                                                                    |
| <b>Form</b>             | 100mMNaHCO <sub>3</sub> , 500mMNaCl, pH8.3, containing 1mM EDTA, 1mM DTT, 0.01% SKL, 5% Trehalose and Proclin300. |
| <b>Molecular Mass</b>   | 49 kDa                                                                                                            |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                      |
| <b>Purity</b>           | > 95%                                                                                                             |
| <b>Storage</b>          | Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.                         |
| <b>Reconstitution</b>   | Reconstitute in 100mM NaHCO <sub>3</sub> , 500mM NaCl (pH8.3) to a concentration of 0.1-1.0 mg/mL. Do not vortex. |
