

## Recombinant Rhesus Monkey CD180 Protein, hlgG4-tagged

**Cat. No.** CD180-1600R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                         |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rhesus monkey CD180 Protein (XP_002808476 ( aa.24-626)) was expressed in human HEK293 cells with hlgG4 tag. |
| <b>Species</b>          | Rhesus macaque                                                                                                          |
| <b>Source</b>           | HEK293                                                                                                                  |
| <b>ProteinLength</b>    | 24-626 a.a.                                                                                                             |
| <b>Form</b>             | PBS, pH7.4.                                                                                                             |
| <b>Purity</b>           | > 95 %                                                                                                                  |
| <b>Applications</b>     | ELISA; WB; Immunogen                                                                                                    |
| <b>Storage</b>          | -80 centigrade, Avoid freeze/thaw cycle.                                                                                |
| <b>Concentration</b>    | 1 mg/mL                                                                                                                 |
