

## Recombinant Rhesus Monkey NGFR Protein

**Cat. No.** NGFR-1655R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rhesus monkey NGFR Protein (XP_001090039 ( aa.30-249)) was expressed in human HEK293 cells. |
| <b>Species</b>          | Rhesus macaque                                                                                          |
| <b>Source</b>           | HEK293                                                                                                  |
| <b>ProteinLength</b>    | 30-249 a.a.                                                                                             |
| <b>Form</b>             | PBS, pH7.4.                                                                                             |
| <b>Purity</b>           | > 95 %                                                                                                  |
| <b>Applications</b>     | ELISA; WB; Immunogen                                                                                    |
| <b>Storage</b>          | -80 centigrade, Avoid freeze/thaw cycle.                                                                |
| <b>Concentration</b>    | 1 mg/mL                                                                                                 |

### GENE INFORMATION

|                        |                                                                      |
|------------------------|----------------------------------------------------------------------|
| <b>Gene Name</b>       | NGFR nerve growth factor receptor [ Macaca mulatta (Rhesus monkey) ] |
| <b>Official Symbol</b> | NGFR                                                                 |
