

# Recombinant Rhesus Monkey CD302 Protein, hlgG1-tagged

**Cat. No.** CD302-1700R    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                         |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rhesus monkey CD302 Protein (XP_014965710 ( aa.23-168)) was expressed in human HEK293 cells with hlgG1 tag. |
| <b>Species</b>          | Rhesus macaque                                                                                                          |
| <b>Source</b>           | HEK293                                                                                                                  |
| <b>ProteinLength</b>    | 23-168 a.a.                                                                                                             |
| <b>Form</b>             | PBS, pH7.4.                                                                                                             |
| <b>Purity</b>           | > 95 %                                                                                                                  |
| <b>Applications</b>     | ELISA; WB; Immunogen                                                                                                    |
| <b>Storage</b>          | -80 centigrade, Avoid freeze/thaw cycle.                                                                                |
| <b>Concentration</b>    | 1 mg/mL                                                                                                                 |
