# Recombinant Human BET1 Protein, GST-tagged

**Cat. No.** BET1-198H **Lot. No.** (See product label)

## SPECIFICATION

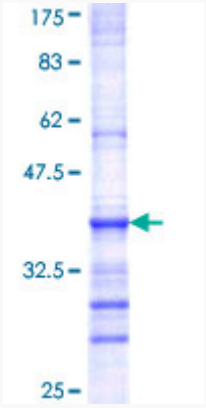

| | |
|---|---|
| **Product Overview** | Human BET1 partial ORF ( NP_005859, 1 a.a. - 95 a.a.) recombinant protein with GST-tag at N-terminal. |
| **Species** | Human |
| **Source** | Wheat Germ |
| **Description** | This gene encodes a golgi-associated membrane protein that participates in vesicular transport from the endoplasmic reticulum (ER) to the Golgi complex. The encoded protein functions as a soluble N-ethylaleimide-sensitive factor attachment protein receptor and may be involved in the docking of ER-derived vesicles with the cis-Golgi membrane. Alternatively spliced transcript variants encoding different isoforms have been described but their full-length nature has not been determined. [provided by RefSeq] |
