

## Active Spirulina sp. C-Phycocyanin

**Cat. No.** CPC-323    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                     |                                                                                                                                                                 |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Species</b>      | Spirulina sp.                                                                                                                                                   |
| <b>Form</b>         | Highly purified, lyophilized powder containing sucrose, dithioerythritol and sodium azide as preservatives                                                      |
| <b>Bio-activity</b> | C-phycocyanin was shown to function as an antioxidant and to inhibit the production of melanin in human skin by reducing expression and activity of tyrosinase. |
| <b>Notes</b>        | Composition: Protein, ~30% Lowry.                                                                                                                               |
| <b>Storage</b>      | Store at 2-8 centigrade.                                                                                                                                        |
