

# Recombinant Mouse Ndufab1 Protein, His-tagged

**Cat. No.** Ndufab1-505M    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                     |
|-------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Mouse Ndufab1(Ser3~Glu129) fused with His tag at N-terminal was expressed in E. coli.                   |
| <b>Species</b>          | Mouse                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                              |
| <b>ProteinLength</b>    | Ser3~Glu129                                                                                                         |
| <b>Description</b>      | Ndufab1 played an important role in many functions.                                                                 |
| <b>Form</b>             | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                             |
| <b>Molecular Mass</b>   | 17.72kDa                                                                                                            |
| <b>Identity</b>         | Reconstitute in PBS or others                                                                                       |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                        |
| <b>Purity</b>           | > 95%                                                                                                               |
| <b>Applications</b>     | Positive Control; Immunogen; SDS-PAGE; WB.<br>If bio-activity of the protein is needed, please check active protein |
| <b>Stability</b>        | The thermal stability is described by the loss rate. The loss rate was determined by                                |

accelerated thermal degradation test, that is, incubate the protein at 37 centigrade for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

**Storage**

Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.

**Reconstitution**

Reconstitute in PBS or others

## GENE INFORMATION

**Gene Name**

Ndufab1 NADH dehydrogenase (ubiquinone) 1, alpha/beta subcomplex, 1 [ Mus musculus ]

**Official Symbol**

Ndufab1

**Synonyms**

NDUFAB1; NADH dehydrogenase (ubiquinone) 1, alpha/beta subcomplex, 1; acyl carrier protein, mitochondrial; NADH-ubiquinone oxidoreductase 9.6 kDa subunit; ACP; 8kDa; SDAP; CI-SDAP; 2210401F17Rik; 2310039H15Rik; 2610003B19Rik; 9130423F15Rik;

**Gene ID**

70316

**mRNA Refseq**

NM\_028177

**Protein Refseq**

NP\_082453

**UniProt ID**

Q9CR21
