

# Recombinant Rat Cxcl10 Protein, His-tagged

**Cat. No.** Cxcl10-526R    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                     |
|-------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Rat Cxcl10(Ile22~Pro98) fused with His tag at N-terminal was expressed in E. coli.                      |
| <b>Species</b>          | Rat                                                                                                                 |
| <b>Source</b>           | E.coli                                                                                                              |
| <b>ProteinLength</b>    | Ile22~Pro98                                                                                                         |
| <b>Description</b>      | Cxcl10 played an important role in many functions.                                                                  |
| <b>Form</b>             | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                             |
| <b>Molecular Mass</b>   | 12.38kDa                                                                                                            |
| <b>Identity</b>         | Reconstitute in PBS or others                                                                                       |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                        |
| <b>Purity</b>           | > 95%                                                                                                               |
| <b>Applications</b>     | Positive Control; Immunogen; SDS-PAGE; WB.<br>If bio-activity of the protein is needed, please check active protein |
| <b>Stability</b>        | The thermal stability is described by the loss rate. The loss rate was determined by                                |

accelerated thermal degradation test, that is, incubate the protein at 37 centigrade for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

**Storage**

Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.

**Reconstitution**

Reconstitute in PBS or others

## GENE INFORMATION

**Gene Name**

Cxcl10 chemokine (C-X-C motif) ligand 10 [ *Rattus norvegicus* ]

**Official Symbol**

Cxcl10

**Synonyms**

CXCL10; chemokine (C-X-C motif) ligand 10; C-X-C motif chemokine 10; gamma-IP10; protein Mob-1; small-inducible cytokine B10; interferon-inducible protein 10; interferon-inducible cytokine IP-10; 10 kDa interferon gamma-induced protein; small inducible cytokine B subfamily (Cys-X-Cys) member 10; small inducible cytokine B subfamily (Cys-X-Cys), member 10; IP-10; Scyb10;

**Gene ID**

245920

**mRNA Refseq**

NM\_139089

**Protein Refseq**

NP\_620789

**UniProt ID**

P48973
