

## Recombinant Human C10orf96 Protein, GST-tagged

**Cat. No.** C10orf96-454H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human C10orf96 full-length ORF (AAH44830.1, 1 a.a. - 258 a.a.) recombinant protein with GST-tag at N-terminal.                                                                                                                                                                      |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                               |
| <b>Source</b>           | Wheat Germ                                                                                                                                                                                                                                                                          |
| <b>Form</b>             | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                                                                                                                                                                                            |
| <b>Molecular Mass</b>   | 54.78 kDa                                                                                                                                                                                                                                                                           |
| <b>AA Sequence</b>      | MSLESFLQHIIIFTEHQAEESRRLMREVRSEITRCREKIKKATEELNEEKIKLESKVQQF<br>FEKSFFLQLLLKAHENALEKQYSEITNHRNMLLQTFEAIKKQMIEEEDKFIKEITDFNND<br>YEITKKRELLMKENVKIEISDLENQANMLKSEMKSMEHDSSQLNELQKQKSELIQELF<br>TLQRKLKVFEDENESICTTKYLEAEKIKISEKPQNDTECLRLKKELELYKEDDMESV<br>YEALQTEIEFLELTLAQKDLQESK |
| <b>Storage</b>          | Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                            |
| <b>Storage Buffer</b>   | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                                                                                                                                                                                            |

### GENE INFORMATION

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| <b>Gene Name</b> | C10orf96 chromosome 10 open reading frame 96 [ Homo sapiens ] |
