

## Recombinant Human C14orf184 Protein, MYC/DDK-tagged

**Cat. No.** C14orf184-613H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                           |
|-------------------------|-------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human C14orf184 fused with MYC/DDK tag at C-terminal was expressed in HEK293. |
| <b>Species</b>          | Human                                                                                     |
| <b>Source</b>           | HEK293                                                                                    |
| <b>Form</b>             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.                                     |
| <b>Molecular Mass</b>   | 15.3 kDa                                                                                  |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                               |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                          |
