

# Recombinant Human RNF144B Protein, GST/His-tagged

**Cat. No.** RNF144B-683H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human RNF144B fused with N-terminal GST and C-terminal His was expressed in E. coli. |
| <b>Species</b>          | Human                                                                                            |
| <b>Source</b>           | E.coli                                                                                           |
| <b>Form</b>             | 25mM Tris,pH8.0,150mM NaCl,10% glycerol,1% Sarkosyl.                                             |
| <b>Molecular Mass</b>   | 61.5 kDa                                                                                         |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                      |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                                 |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | RNF144B ring finger protein 144B [ Homo sapiens ]                                                                                                                                                                                                            |
| <b>Official Symbol</b> | RNF144B                                                                                                                                                                                                                                                      |
| <b>Synonyms</b>        | RNF144B; ring finger protein 144B; IBR domain containing 2 , IBRDC2; E3 ubiquitin-protein ligase RNF144B; bA528A10.3; IBR domain containing 2; IBR domain-containing protein 2; p53-inducible RING finger protein; PIR2; IBRDC2; p53RFP; KIAA0161; MGC71786; |
