

Recombinant Human CLN6 Protein, GST-tagged

Cat. No. CLN6-1507H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human CLN6 full-length ORF (NP_060352.1, 1 a.a. - 311 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	Wheat Germ
Description	This gene is one of eight which have been associated with neuronal ceroid lipofuscinoses (NCL). Also referred to as Batten disease, NCL comprises a class of autosomal recessive, neurodegenerative disorders affecting children. The genes responsible likely encode proteins involved in the degradation of post-translationally modified proteins in lysosomes. The primary defect in NCL disorders is thought to be associated with lysosomal storage function. [provided by RefSeq, Oct 2008]
