

Recombinant Human Annexin A10, GST-tagged

Cat. No. ANXA10-5258H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinanthuman ANXA10 was expressed in E.coli with an N-terminal GSTtag.
Species	Human
Source	E.coli
Description	AnnexinA10 (ANXA10) is a calcium-dependent phospholipid-binding protein and the least expressed member of the annexin family. Little is known about the function of ANXA10, but studies have shown the expression of ANXA10 mRNA in adult liver and hepatocellular carcinoma (HCC), and have also demonstrated that ANXA10 regulates gastric cancer cell proliferation and may play a role during gastric cancer progression.
Form	Purified recombinant protein-liquid.
Application	ELISA; Western Blotting
Preparation	Purified recombinant GST-tagged ANXA10 expressed in E.coli.
Buffer Solution	Phosphate buffered saline.
Molecular Weight	65 kD(562 amino acid residues with tag).
Concentration	0.5mg/ml
Storage	Store at -70oC.Storage in frost-free freezers is not recommended. This product

should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

GENE INFORMATION

Gene Name	ANXA10 annexin A10 [Homo sapiens]
Official Symbol	ANXA10
Synonyms	ANXA10;annexin A10; ANX14;annexin A10; annexin 14; annexin-10; annexin-14; OTTHUMP00000219959
Gene ID	11199
mRNA Refseq	NM_007193
Protein Refseq	NP_009124
MIM	608008
UniProt ID	Q9UJ72
Chromosome Location	4q32.3
Function	calcium ion binding;calcium-dependent phospholipid binding
