

Recombinant Human IARS protein, His & T7-tagged

Cat. No. IARS-8217H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human IARS aa. (Met1~Arg500 (Accession # P41252)) fused with N-terminal His & T7 tag was produced in E. coli cells.
Species	Human
Source	E.coli
ProteinLength	Met1~Arg500
Description	Aminoacyl-tRNA synthetases catalyze the aminoacylation of tRNA by their cognate amino acid. Because of their central role in linking amino acids with nucleotide triplets contained in tRNAs, aminoacyl-tRNA synthetases are thought to be among the first proteins that appeared in evolution. Isoleucine-tRNA synthetase belongs to the class-I aminoacyl-tRNA synthetase family and has been identified as a target of autoantibodies in the autoimmune disease polymyositis/dermatomyositis. Alternatively spliced transcript variants have been found.
Form	Freeze-dried powder
Molecular Mass	Predicted Molecular Mass: 61.7kDa.
Endotoxin	<1.0EU per 1ug (determined by the LAL method)
Purity	>95%

 45-1 Ramsey Road, Shirley, NY 11967, USA

Characteristic	The isoelectric point is 5.6.
Applications	SDS-PAGE; WB; ELISA; IP.
Stability	The thermal stability is described by the loss rate of the target protein. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. (Referring from China Biological Products Standard, which was calculated by the Arrhenius equation.) The loss of this protein is less than 5% within the expiration date under appropriate storage condition.
Storage	Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months.
Storage Buffer	Supplied as lyophilized form in PBS, pH7.4, containing 5% trehalose, 0.01% sarcosyl.
Reconstitution	Reconstitute in sterile PBS, pH7.2-pH7.4.

GENE INFORMATION

Gene Name	IARS isoleucyl-tRNA synthetase [Homo sapiens (human)]
Official Symbol	IARS
Synonyms	IARS; isoleucyl-tRNA synthetase; IRS; ILRS; IARS1; ILERS; GRIDHH; PRO0785; isoleucine--tRNA ligase, cytoplasmic; isoleucine tRNA ligase 1, cytoplasmic
Gene ID	3376
mRNA Refseq	NM_002161.5
