

## Recombinant Human CCDC9 Protein, GST-Tagged

**Cat. No.** CCDC9-0591H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human CCDC9 full-length ORF (NP_056418.1, 1 a.a. - 531 a.a.) recombinant protein with GST-tag at N-terminal.                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <b>Description</b>      | CCDC9 (Coiled-Coil Domain Containing 9) is a Protein Coding gene. GO annotations related to this gene include poly(A) RNA binding. An important paralog of this gene is C15orf52.                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Molecular Mass</b>   | 86.1 kDa                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

Western Blot (Recombinant protein)  
Antibody Production  
Protein Array

**Storage** Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.

**Storage Buffer** 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.

## GENE INFORMATION

**Gene Name** CCDC9 coiled-coil domain containing 9 [ Homo sapiens ]

**Official Symbol** CCDC9

**Synonyms** CCDC9; coiled-coil domain containing 9; Coiled-Coil Domain Containing 9

**Gene ID** 26093

**mRNA Refseq** NM\_015603

**Protein Refseq** NP\_056418

**UniProt ID** Q9Y3X0
