

# Recombinant Human CCDC91 Protein, GST-Tagged

**Cat. No.** CCDC91-0593H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human CCDC91 full-length ORF (AAH28682.1, 1 a.a. - 411 a.a.) recombinant protein with GST-tag at N-terminal.                                                                                                                                                                                                                                                                                                                            |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Source</b>           | Wheat Germ                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Description</b>      | CCDC91 (Coiled-Coil Domain Containing 91) is a Protein Coding gene. GO annotations related to this gene include identical protein binding.                                                                                                                                                                                                                                                                                              |
| <b>Molecular Mass</b>   | 73.5 kDa                                                                                                                                                                                                                                                                                                                                                                                                                                |

**Storage** Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.

**Storage Buffer** 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.

## GENE INFORMATION

**Gene Name** CCDC91 coiled-coil domain containing 91 [ Homo sapiens ]

**Official Symbol** CCDC91

**Synonyms** CCDC91; coiled-coil domain containing 91; coiled-coil domain-containing protein 91; DKFZp779L1558; FLJ11088; GGA binding partner; p56; GGA-binding partner; p56 accessory protein; HSD8;

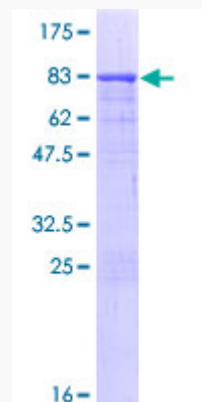

**Gene ID** 55297

**mRNA Refseq** NM\_018318

**Protein Refseq** NP\_060788

**UniProt ID** Q7Z6B0

**Quality Control Testing**
