

## Recombinant Human HNRNPUL2 Protein, GST-tagged

**Cat. No.** HNRNPUL2-4908H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>Description</b>      | HNRNPUL2 (Heterogeneous Nuclear Ribonucleoprotein U Like 2) is a Protein Coding gene. GO annotations related to this gene include poly(A) RNA binding and kinase activity. An important paralog of this gene is HNRNPUL2-BSCL2.                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Molecular Mass</b>   | 82.2 kDa                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

**Applications**

Enzyme-linked Immunoabsorbent Assay  
Western Blot (Recombinant protein)  
Antibody Production  
Protein Array

**Notes**

Best use within three months from the date of receipt of this protein.

**Storage**

Store at -8 centigrade. Aliquot to avoid repeated freezing and thawing.

**Storage Buffer**

50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.

## GENE INFORMATION

**Gene Name**

[HNRNPUL2 heterogeneous nuclear ribonucleoprotein U-like 2 \[ Homo sapiens \]](#)

**Official Symbol**

[HNRNPUL2](#)

**Synonyms**

HNRNPUL2; heterogeneous nuclear ribonucleoprotein U-like 2; HNRNPUL2;  
heterogeneous nuclear ribonucleoprotein U-like protein 2; DKFZp762N1910; scaffold-  
attachment factor A2; SAF-A2;

**Gene ID**

[221092](#)

**mRNA Refseq**

[NM\\_001079559](#)

**Protein Refseq**
