

## Recombinant Junin virus GP( $\Delta$ TM) Protein

Cat. No. GP-1712J    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                   |
|------------------|-----------------------------------------------------------------------------------|
| Product Overview | Recombinant Junin virus GP protein(Genbank No. GQ121040) was expressed in HEK293. |
| Species          | Junin virus                                                                       |
| Source           | HEK293                                                                            |
| Form             | PBS, pH 7.4.                                                                      |
| Purity           | >95%                                                                              |
| Applications     | WB standard, Ab ELISA, immunogen, etc.                                            |
| Storage          | Store at -80 centigrade, Avoid freeze / thaw cycle.                               |
| Concentration    | 1mg/mL                                                                            |
