

Recombinant Full Length Marburg virus nucleoprotein Protein, His tagged

Cat. No. NP-1735M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Full Length Marburg virus NP Protein with His tag was expressed in E. coli.
Species	Marburg virus
Source	E.coli
ProteinLength	Full length
Description	Encapsidates the genome, protecting it from nucleases. The encapsidated genomic RNA is termed the nucleocapsid and serves as template for transcription and replication. During replication, encapsidation by NP is coupled to RNA synthesis and all replicative products are resistant to nucleases (By similarity).
Tag	N-His
