

## Recombinant HCV/Genotype-1a/Con NS5a Protein, GST-tagged

**Cat. No.** NS5a-1776H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | The E.coli derived recombinant protein contains the HCV NS5 Genotype1a immunodominant regions, amino acids 2322-2423 having a total Mw of 38.34kD which includes a 26Kda GST tag. |
| <b>Species</b>          | HCV                                                                                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                                                                                            |
| <b>ProteinLength</b>    | 2322-2423 a.a.                                                                                                                                                                    |
| <b>Form</b>             | PBS, pH 7.4.                                                                                                                                                                      |
| <b>Purity</b>           | >95%                                                                                                                                                                              |
| <b>Applications</b>     | WB standard, Ab ELISA, immunogen, etc.                                                                                                                                            |
| <b>Storage</b>          | Store at -80 centigrade, Avoid freeze / thaw cycle.                                                                                                                               |
| <b>Concentration</b>    | 1mg/mL                                                                                                                                                                            |
