

Recombinant Human DIRC2 Protein, GST-tagged

Cat. No. DIRC2-5196H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human DIRC2 full-length ORF (NP_116228.1, 1 a.a. - 478 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	Wheat Germ
Description	This gene encodes a membrane-bound protein from the major facilitator superfamily of transporters. Disruption of this gene by translocation has been associated with haplo-insufficiency and renal cell carcinomas. Alternatively spliced transcript variants have been described, but their biological validity has not yet been determined. [provided by RefSeq, Jul 2008]
