

## Recombinant Human FAM110A Protein, GST-tagged

**Cat. No.** FAM110A-3673H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human FAM110A full-length ORF ( NP_113612.1, 1 a.a. - 295 a.a.) recombinant protein with GST-tag at N-terminal.                                                                                                                                                                                                             |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                       |
| <b>Source</b>           | Wheat Germ                                                                                                                                                                                                                                                                                                                  |
| <b>Description</b>      | FAM110A (Family With Sequence Similarity 110 Member A) is a Protein Coding gene. An important paralog of this gene is FAM110B.                                                                                                                                                                                              |
| <b>Molecular Mass</b>   | 57.7 kDa                                                                                                                                                                                                                                                                                                                    |

**Storage** Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.

**Storage Buffer** 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.

## GENE INFORMATION

**Gene Name** FAM110A family with sequence similarity 110, member A [ Homo sapiens ]

**Official Symbol** FAM110A

**Synonyms** family with sequence similarity 110, member A; 16188; Ensembl:ENSG00000125898; MGC2450, MGC4675; protein FAM110A; F10; C20orf55; bA371L19.3

**Gene ID** 83541

**mRNA Refseq** NM\_001042353

**Protein Refseq** NP\_001035812

**MIM** 611393

**UniProt ID** Q9BQ89
