

Recombinant Human Biogenesis of Lysosomal Organelles Complex-1, Subunit 2, His-tagged

Cat. No. BLOC1S2-6767H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant humanBLOC1S2 protein, fused to His-tag at N-terminus, was expressed in E.coli andpurified by using conventional chromatography techniques
Species	Human

Description	BLOC1S2 (Biogenesisof lysosome-related organelles complex 1 subunit 2) belongs to the BLOC1S2family. BLOC-1 or biogenesis of lysosome-related organelles complex 1 is aubiquitously expressed multisubunit protein complex. BLOC-1 is required fornormal biogenesis of specialized organelles of the endosomal-lysosomalssystem, such as melanosomes and platelet dense granules. This protein plays arole in cell proliferation.
