

## Recombinant Human TRAPPC13 Protein, His-tagged

Cat. No. TRAPPC13-2633H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                  |
|------------------|--------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human TRAPPC13 protein, fused to His-tagged at N-terminus, was expressed in E. coli. |
| Species          | Human                                                                                            |
| Source           | E.coli                                                                                           |
| Form             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10% glycerol, 1% Sarkosyl.                                      |
| Molecular Mass   | 46.4 kDa                                                                                         |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                      |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                                 |

### GENE INFORMATION

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Gene Name       | TRAPPC13 trafficking protein particle complex 13 [ Homo sapiens ] |
| Official Symbol | TRAPPC13                                                          |
| Synonyms        | C5orf44; C5orf44                                                  |
| Gene ID         | 80006                                                             |
