

## Recombinant Human CCDC13 Protein, His-tagged

**Cat. No.** CCDC13-2765H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                |
|-------------------------|------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human CCDC13 protein, fused to His-tagged at N-terminus, was expressed in E. coli. |
| <b>Species</b>          | Human                                                                                          |
| <b>Source</b>           | E.coli                                                                                         |
| <b>Form</b>             | 50 mM Tris,8 M Urea,pH 8.0.                                                                    |
| <b>Molecular Mass</b>   | 80.7 kDa                                                                                       |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                    |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                               |

### GENE INFORMATION

|                        |                                                          |
|------------------------|----------------------------------------------------------|
| <b>Gene Name</b>       | CCDC13 coiled-coil domain containing 13 [ Homo sapiens ] |
| <b>Official Symbol</b> | CCDC13                                                   |
| <b>Synonyms</b>        | FLJ25467                                                 |
| <b>Gene ID</b>         | 152206                                                   |
