

## Recombinant Human BTG4 Protein, His-tagged

**Cat. No.** BTG4-2830H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                              |
|-------------------------|----------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human BTG4 protein, fused to His-tagged at N-terminus, was expressed in E. coli. |
| <b>Species</b>          | Human                                                                                        |
| <b>Source</b>           | E.coli                                                                                       |
| <b>Form</b>             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10% glycerol, 1% Sarkosyl.                                  |
| <b>Molecular Mass</b>   | 25.8 kDa                                                                                     |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                  |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                             |

### GENE INFORMATION

|                        |                                                   |
|------------------------|---------------------------------------------------|
| <b>Gene Name</b>       | BTG4 B-cell translocation gene 4 [ Homo sapiens ] |
| <b>Official Symbol</b> | BTG4                                              |
| <b>Synonyms</b>        | PC3B                                              |
| <b>Gene ID</b>         | 54766                                             |
