

## Recombinant Human SUSP1 Protein, MYC/DDK-tagged

Cat. No. SUSP1-3079H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                  |
|------------------|--------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human SUSP1 protein, fused to MYC/DDK-tagged at C-terminus, was expressed in HEK293. |
| Species          | Human                                                                                            |
| Source           | HEK293                                                                                           |
| Form             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.                                            |
| Molecular Mass   | 82.5 kDa                                                                                         |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                      |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                                 |

### GENE INFORMATION

|                 |                                                  |
|-----------------|--------------------------------------------------|
| Gene Name       | SUSP1 sushi domain containing 1 [ Homo sapiens ] |
| Official Symbol | SUSP1                                            |
| Synonyms        | RP11-4O1.1                                       |
| Gene ID         | 64420                                            |
