

## Recombinant Human CORO6 Protein, MYC/DDK-tagged

**Cat. No.** CORO6-3306H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human CORO6 protein, fused to MYC/DDK-tagged at C-terminus, was expressed in HEK293. |
| <b>Species</b>          | Human                                                                                            |
| <b>Source</b>           | HEK293                                                                                           |
| <b>Form</b>             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.                                            |
| <b>Molecular Mass</b>   | 52.8 kDa                                                                                         |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                      |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                                 |

### GENE INFORMATION
