

Recombinant Human GNLY Protein, GST-tagged

Cat. No. GNLY-5084H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human GNLY full-length ORF (AAH23576, 16 a.a. - 145 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	Wheat Germ
Description	The product of this gene is a member of the saposin-like protein (SAPLIP) family and is located in the cytotoxic granules of T cells, which are released upon antigen stimulation. This protein is present in cytotoxic granules of cytotoxic T lymphocytes and natural killer cells, and it has antimicrobial activity against M. tuberculosis and other organisms. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq]
