

## Recombinant Human C21orf62 Protein, His-tagged

**Cat. No.** C21orf62-1836H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human C21orf62 protein, fused to His-tagged at N-terminus, was expressed in E. coli                                                                                                                             |
| <b>Species</b>          | Human                                                                                                                                                                                                                       |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                      |
| <b>Form</b>             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10% glycerol, 1% Sarkosyl. Store at -80 Centigrade. Avoid repeated freeze-thaw cycles. Stable for at least 3 months from receipt of products under proper storage and handling conditions. |
| <b>Molecular Mass</b>   | 68.2 kDa                                                                                                                                                                                                                    |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                 |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                                                                                                                                                            |

### GENE INFORMATION

|                        |                                                               |
|------------------------|---------------------------------------------------------------|
| <b>Gene Name</b>       | C21orf62 chromosome 21 open reading frame 62 [ Homo sapiens ] |
| <b>Official Symbol</b> | C21orf62                                                      |
| <b>Synonyms</b>        | B37; C21orf120; PRED81                                        |
