

## Recombinant Human MTMR6 Protein, MYC/DDK-tagged

Cat. No. MTMR6-2183H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                 |
|------------------|-------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human MTMR6 protein, fused to MYC/DDK-tagged at C-terminus, was expressed in HEK293 |
| Species          | Human                                                                                           |
| Source           | HEK293                                                                                          |
| Form             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.                                           |
| Molecular Mass   | 71.8 kDa                                                                                        |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                     |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                                |

### GENE INFORMATION

|                 |                                                       |
|-----------------|-------------------------------------------------------|
| Gene Name       | MTMR6 myotubularin related protein 6 [ Homo sapiens ] |
| Official Symbol | MTMR6                                                 |
| Synonyms        | OTTHUMP00000018145; myotubularin related protein 6    |
| Gene ID         | 9107                                                  |
