

## Recombinant Human TP53TG3 Protein, His-tagged

**Cat. No.** TP53TG3-2301H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human TP53TG3 protein, fused to His-tagged at N-terminus, was expressed in E. coli                                                                                                                 |
| <b>Species</b>          | Human                                                                                                                                                                                                          |
| <b>Source</b>           | E.coli                                                                                                                                                                                                         |
| <b>Form</b>             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10% glycerol. Store at -80 Centigrade. Avoid repeated freeze-thaw cycles. Stable for at least 3 months from receipt of products under proper storage and handling conditions. |
| <b>Molecular Mass</b>   | 31.8 kDa                                                                                                                                                                                                       |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                    |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                                                                                                                                               |

### GENE INFORMATION

|                        |                                        |
|------------------------|----------------------------------------|
| <b>Gene Name</b>       | TP53TG3 TP53 target 3 [ Homo sapiens ] |
| <b>Official Symbol</b> | TP53TG3                                |
| <b>Synonyms</b>        | C20orf10; CLG01                        |
