

Recombinant Human BANF1 Protein, His-tagged

Cat. No. BANF1-563H Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant Human BANF1(Thr2~Leu89) fused with His tag at N-terminal was expressed in E. coli.
Species	Human
Source	E.coli
ProteinLength	Thr2~Leu89
Description	<p>The protein encoded by this gene was first identified by its ability to protect retroviruses from intramolecular integration and therefore promote intermolecular integration into the host cell genome. The protein forms a homodimer which localizes to both the nucleus and cytoplasm and is specifically associated with chromosomes during mitosis. This protein binds to double stranded DNA in a non-specific manner and also binds to LEM-domain containing proteins of the nuclear envelope. This protein is thought to facilitate nuclear reassembly by binding with both DNA and inner nuclear membrane proteins and thereby recruit chromatin to the nuclear periphery. Alternative splicing results in multiple transcript variants encoding the same protein.</p>
Form	PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.
Molecular Mass	13.6kDa
Endotoxin	<1.0EU per 1ug (determined by the LAL method)

 45-1 Ramsey Road, Shirley, NY 11967, USA

Purity	> 95%
Applications	Positive Control; Immunogen; SDS-PAGE; WB. If bio-activity of the protein is needed, please check active protein
Stability	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 centigrade for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Storage	Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.
Reconstitution	Reconstitute in PBS or others

GENE INFORMATION

Gene Name	BANF1 barrier to autointegration factor 1 [Homo sapiens]
Official Symbol	BANF1
Synonyms	BANF1; barrier to autointegration factor 1; barrier-to-autointegration factor; BAF; breakpoint cluster region protein 1; NGPS; BCRP1; D14S1460; MGC111161;
Gene ID	8815
mRNA Refseq	NM_001143985
Protein Refseq	NP_001137457
MIM	603811
