

Recombinant Human IRAK3 Protein, GST-tagged

Cat. No. IRAK3-5051H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human IRAK3 full-length ORF (AAH57800, 1 a.a. - 596 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	Wheat Germ
Description	This gene encodes a member of the interleukin-1 receptor-associated kinase protein family. Members of this family are essential components of the Toll/IL-R immune signal transduction pathways. This protein is primarily expressed in monocytes and macrophages and functions as a negative regulator of Toll-like receptor signaling. Mutations in this gene are associated with a susceptibility to asthma. Alternate splicing results in multiple transcript variants. [provided by RefSeq, May 2010]
