

## Recombinant Mouse NCL Protein, His-tagged

**Cat. No.** NCL-1493M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Mouse NCL Protein (Tyr353~Ser568) was expressed in E. coli with N-terminal His Tag.                              |
| <b>Species</b>          | Mouse                                                                                                                        |
| <b>Source</b>           | E.coli                                                                                                                       |
| <b>ProteinLength</b>    | 353-568 a.a.                                                                                                                 |
| <b>Form</b>             | Liquid                                                                                                                       |
| <b>Molecular Mass</b>   | 25.5kDa                                                                                                                      |
| <b>Endotoxin</b>        | <1.0EU per 1g (determined by the LAL method)                                                                                 |
| <b>Purity</b>           | > 97%                                                                                                                        |
| <b>Storage</b>          | Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months. |
| <b>Storage Buffer</b>   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                      |

### GENE INFORMATION

|                  |                                       |
|------------------|---------------------------------------|
| <b>Gene Name</b> | Ncl nucleolin [ <i>Mus musculus</i> ] |
