

## Recombinant Human MAB21L3 Protein, His-tagged

**Cat. No.** MAB21L3-184H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human MAB21L3 protein, fused to His-tag at N-terminus, was expressed in E.coli. |
| <b>Species</b>          | Human                                                                                       |
| <b>Source</b>           | E.coli                                                                                      |
| <b>Form</b>             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl.                               |
| <b>Molecular Mass</b>   | 42.2 kDa                                                                                    |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                 |
| <b>Concentration</b>    | >50 ug/mL as determined by microplate BCA method                                            |

### GENE INFORMATION

|                        |                                |
