

## Recombinant Human TBC1D28 Protein, His-tagged

Cat. No. TBC1D28-324H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                                                               |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human TBC1D28 protein, fused to His tag at N-terminus, was expressed in E. coli.                                                                                                                                  |
| Species          | Human                                                                                                                                                                                                                         |
| Source           | E.coli                                                                                                                                                                                                                        |
| Form             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl. Store at -80 centigrade. Avoid repeated freeze-thaw cycles. Stable for at least 3 months from receipt of products under proper storage and handling conditions. |
| Molecular Mass   | 23.9 kDa                                                                                                                                                                                                                      |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                   |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                                                                                                                                                              |

### GENE INFORMATION

|                 |                                               |
|-----------------|-----------------------------------------------|
| Gene Name       | TBC1 domain family member 28 [ Homo sapiens ] |
| Official Symbol | TBC1D28                                       |
