

## Recombinant Human FAM149B1 Protein, His-tagged

Cat. No. FAM149B1-1122H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                               |
|------------------|-----------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human FAM149B1 protein, fused to His tag at N-terminus, was expressed in E. coli. |
| Species          | Human                                                                                         |
| Source           | E.coli                                                                                        |
| Form             | 25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl.                                 |
| Molecular Mass   | 64.4 kDa                                                                                      |
| Purity           | >50 ug/mL as determined by microplate BCA method                                              |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                              |

### GENE INFORMATION

|                 |                                                                          |
|-----------------|--------------------------------------------------------------------------|
| Gene Name       | FAM149B1 family with sequence similarity 149, member B1 [ Homo sapiens ] |
| Official Symbol | FAM149B1                                                                 |
| Synonyms        | KIAA0974; KIAA0974                                                       |
| Gene ID         | 317662                                                                   |
