

## Recombinant Human FAM161B Protein, His-tagged

Cat. No. FAM161B-1309H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                              |
|------------------|----------------------------------------------------------------------------------------------|
| Product Overview | Recombinant human FAM161B protein, fused to His tag at N-terminus, was expressed in E. coli. |
| Species          | Human                                                                                        |
| Source           | E.coli                                                                                       |
| Form             | 50 mM Tris, 8 M Urea, pH 8.0.                                                                |
| Molecular Mass   | 73.5 kDa                                                                                     |
| Purity           | >50 ug/mL as determined by microplate BCA method                                             |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                             |

### GENE INFORMATION

|                 |                                                                        |
|-----------------|------------------------------------------------------------------------|
| Gene Name       | FAM161B family with sequence similarity 161, member B [ Homo sapiens ] |
| Official Symbol | FAM161B                                                                |
| Synonyms        | C14orf44; c14_5547                                                     |
| Gene ID         | 145483                                                                 |
