

## Recombinant LCMV NP(Clone 13) Protein

**Cat. No.** NP-1739L    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                             |
|-------------------------|-----------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant LCMV NP protein(Genbank No. DQ361065) was expressed in E. coli. |
| <b>Species</b>          | LCMV                                                                        |
| <b>Source</b>           | E.coli                                                                      |
| <b>Form</b>             | PBS, pH 7.4.                                                                |
| <b>Purity</b>           | >95%                                                                        |
| <b>Applications</b>     | WB standard, Ab ELISA, immunogen, etc.                                      |
| <b>Storage</b>          | Store at -80 centigrade, Avoid freeze / thaw cycle.                         |
| <b>Concentration</b>    | 1mg/mL                                                                      |
