

## Recombinant IBV (B/Yamagata/16/1988) HA ( $\Delta$ TM) Protein, His-tagged

Cat. No. HA-1855I    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                   |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | C-terminal 6xHis tagged HA( $\Delta$ TM)(B/Yamagata/16/1988) protein (a.a. 16-546) (GeneBank No. M36105) was expressed in HEK293. |
| Species          | IBV                                                                                                                               |
| Source           | HEK293                                                                                                                            |
| ProteinLength    | 16-546 a.a.                                                                                                                       |
| Form             | PBS, pH 7.4.                                                                                                                      |
| Purity           | >95%                                                                                                                              |
| Applications     | WB standard, antibody ELISA, immunogen                                                                                            |
| Storage          | Store at -80 centigrade, Avoid freeze / thaw cycle.                                                                               |
| Concentration    | 1mg/mL                                                                                                                            |
