

## Recombinant H3N2 (A/Aichi/2/1968) HA ( $\Delta$ TM) Protein, His-tagged

Cat. No. HA-1875H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                      |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | C-terminal 6xHis tagged HA( $\Delta$ TM)(A/Aichi/2/1968(H3N2)) protein (a.a. 18-530)(Genebank No. AAA43178) was expressed in HEK293. |
| Species          | H3N2                                                                                                                                 |
| Source           | HEK293                                                                                                                               |
| ProteinLength    | 18-530 a.a.                                                                                                                          |
| Form             | PBS, pH 7.4.                                                                                                                         |
| Purity           | >95%                                                                                                                                 |
| Applications     | WB standard, antibody ELISA, immunogen, etc                                                                                          |
| Storage          | Store at -80 centigrade, Avoid freeze / thaw cycle.                                                                                  |
| Concentration    | 1mg/mL                                                                                                                               |
