

## Recombinant H7N7 (A/Netherlands/219/03) HA ( $\Delta$ TM) Protein, His-tagged

Cat. No. HA-1913H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                             |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | C-terminal 6xHis tagged HA( $\Delta$ TM)( A/Netherlands/219/03 (H7N7))protein (a.a.18-532) (Genebank No. AAR02640) was expressed in HEK293. |
| Species          | H7N7                                                                                                                                        |
| Source           | HEK293                                                                                                                                      |
| ProteinLength    | 18-532 a.a.                                                                                                                                 |
| Form             | PBS, pH 7.4.                                                                                                                                |
| Purity           | >95%                                                                                                                                        |
| Applications     | WB standard,AntibodyELISA, immunogen                                                                                                        |
| Storage          | Store at -80 centigrade, Avoid freeze / thaw cycle.                                                                                         |
| Concentration    | 1mg/mL                                                                                                                                      |
