

Native Bovine Type Collagen Type Protein

Cat. No. Collagen Type -525B **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Native Bovine Collagen Type was purified from Bovine Articular Cartilage.
Species	Bovine
Source	Bovine Articular Cartilage
Description	Type II collagen (CII) is fibrillar collagen located mainly in cartilage tissue. The main molecular form of collagen in cartilage is type II collagen. Type II collagen also exists in the intervertebral disc of the vitreous humor, inner ear, nose and spine of the eye. Degradation of type II collagen is an early indicator of osteoarthritis.
Storage	Store below -20 centigrade (below -40 centigrade for prolonged storage).
