

## Recombinant Goat IFNA Protein

**Cat. No.** IFNA-4334G    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Goat IFNA Protein (127aa) was expressed in yeast.                                                                                           |
| <b>Species</b>          | Goat                                                                                                                                                    |
| <b>Source</b>           | Yeast                                                                                                                                                   |
| <b>ProteinLength</b>    | 127aa                                                                                                                                                   |
| <b>Form</b>             | Lyophilized                                                                                                                                             |
| <b>Molecular Mass</b>   | 19.4 kDa                                                                                                                                                |
| <b>AA sequence</b>      | APTRQPSPVT WPWQHVDIAK EALSLLNDSS DTAAVMNETV EVVSEMFDSQ<br>EPTCLQTRLE LYKQGLRGSL TSLTGSLTMM ASHYKKYCPP TQETSCETQI<br>ITFKSFKENL KDFLFIIPFD CWEPVQK (127) |
| <b>Purity</b>           | >95% as visualized by SDS-PAGE analysis.                                                                                                                |
| <b>Applications</b>     | This endotoxin-free recombinant protein can be used in cell culture, ELISA Standard, and as a Western Blot Control.                                     |
| <b>Storage</b>          | Store at -20 centigrade.                                                                                                                                |
