

Recombinant Yellow Fluorescent Protein

Cat. No. YFP-148 Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant synthetic non-Aequorea Yellow Fluorescent Protein was expressed in Pichia. This protein has Excitation of 520nm and Emission of 542nm.
Source	P.pastoris
ProteinLength	237 aa
Description	Synthetic non-Aequorea fluorescent proteins can bring a world of color to your research. The different fluorescent protein coding sequences (genes) that can be easily excised using the flanking BsaI restriction sites and cloned into any other expression vector of choice. These vectors are also available in Creative Biomart. Please contact us for more information.
Form	Liquid or lyophilized powder.
Molecular Mass	26.4 kDa
Purity	>80%
Storage	Store it at +4 centigrade for short term. For long term storage, store it at -20 centigrade to -80 centigrade.

GENE INFORMATION

Official Symbol	YFP
