Recombinant Magenta Chromogenic Protein

Cat. No. Magenta-205 **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant synthetic magenta chromogenic proteins was expressed in Pichia.
Source	P.pastoris
ProteinLength	232 aa
Description	Synthetic Magenta (donner magenta) chromogenic protein can bring a world of color to your research. The different chromogenic protein coding sequences (genes) that can be easily excised using the flanking BsaI restriction sites and cloned into any other expression vector of choice. These vectors are also avaliable in Creative Biomart. Please contact us for more information.
Form	Liquid or lyophilized powder.
Molecular Mass	26.4 kDa
Purity	>80%
Storage	Store it at +4 centigrade for short term. For long term storage, store it at -20 centigrade to -80 centigrade.

GENE INFORMATION

Official Symbol	Magenta

Tel: 1-631-559-9269 1-516-512-3133
