

Native Human LDL Protein

Cat. No. LDL-333H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human LDL is prepared from fresh, non-frozen plasma shown to be non reactive for HBsAg, anti-HCV, anti-HBc, and negative for anti-HIV 1 & 2 by FDA approved tests.
Species	Human
Source	Human Plasma
Description	Low-density lipoprotein (LDL) is one of the five major groups of lipoproteins, which in order of size, largest to smallest, are chylomicrons, VLDL, IDL, LDL, and HDL, that enable transport of multiple different fat molecules, including cholesterol, within the water around cells and within the water-based bloodstream. Studies have shown that higher levels of type-B LDL particles (as opposed to type-A LDL particles) are associated with health problems, including cardiovascular disease. LDL is often informally called bad cholesterol, (as opposed to HDL particles, which are frequently referred to as good cholesterol or healthy cholesterol).
Form	Liquid
Molecular Mass	514 kDa
Endotoxin	<0.5 EU/mg as determined by LAL.
Purity	>98%
Notes	This product is for in vitro research use only.
