

## Recombinant Hepatitis C virus core Protein

**Cat. No.** HCV-1052V    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                                                                               |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | This is Recombinant core of Hepatitis C virus Antigen which is expressed in E. coli with tag of $\beta$ -galactosidase and the mw. is 135 kDa |
| <b>Species</b>             | HCV                                                                                                                                           |
| <b>Source</b>              | E.coli                                                                                                                                        |
| <b>Antigen Description</b> | Fine Specificity: a.a. 2 thru a.a. 192 (22 kDa)                                                                                               |
| <b>Molecular Mass</b>      | 135 kDa                                                                                                                                       |
| <b>Purity</b>              | SDS-PAGE~95%                                                                                                                                  |
| <b>Usage</b>               | ELISA                                                                                                                                         |
| <b>Storage</b>             | 2-8centigrade (short term)                                                                                                                    |
| <b>Storage Buffer</b>      | 20 mM Tris-HCl, pH 8 + 10 mM $\beta$ -ME + 8M urea                                                                                            |
