

## Recombinant HIV-1 gag Protein

**Cat. No.** HIV-1-1071v    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                                   |
|----------------------------|---------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | This is Recombinant HIV-1 gag Antigen which is expressed in Pichia pastoris and the mw. is 26 kDa |
| <b>Species</b>             | Human Immunodeficiency Virus                                                                      |
| <b>Source</b>              | P.pastoris                                                                                        |
| <b>Antigen Description</b> | Fine Specificity: p24                                                                             |
| <b>Molecular Mass</b>      | 26 kDa                                                                                            |
| <b>Purity</b>              | SDS-PAGE~95%                                                                                      |
| <b>Usage</b>               | ELISA & western blot immunoassay                                                                  |
| <b>Storage</b>             | Aliquot & freeze ( $\leq -20^{\circ}\text{C}$ )                                                   |
| <b>Storage Buffer</b>      | Tris-saline, pH 8.0                                                                               |
